I became Dawn's caregiver not too long ago. However in the short time we had together we bonded like we've known each other for years. In this short time we shared so much and had a awesome common belief in our strong faith!! I saw so much strength in her and an enormous love for her daughters and grandson!! I will always treasure our time together and she will remain in my heart forever!! Fly high, be free of the pain and worries of this world!! I'll see you on the other shore!! Love Letha ❤️😭

I met Dawn through her daughter Sadie, we were both students in Dr. Summer Ostrowski's Anatomy class at UWP. Sadie and her friends were running in the color run at the Lake Front and I don't run and her mother didn't run either. While they were running in "the Happiest Race in the world" we got to know each other. We shared friends, coworkers, and introduced Dawn to a couple of self-help groups before she moved to Florida to be with her sister(?). My heart goes out to everyone in her family. Namaste
